## Press release images

### The cloud is not the only solution

**((01\_Alexej\_Voigt\_Danobat-Overbeck.jpg))**

"Our aim is to make it easier to access data-driven production technologies," says Alexej Voigt from Danobat-Overbeck.

Trägerschaft | Sponsorship

**((02\_Schema\_Edge\_Computing.jpg))**

Edge computing is about processing and storing data in the place where it is collected. Only selected data are sent "upon invitation" to external IT instances or to the cloud via a defined interface.

**((03\_André\_Werz\_Kapp-Niles.jpg))**

Even if networking across company boundaries promises the greatest added value: "All digital solutions run on the customer's own machines and in their own network," says André Wetz. This should allay any concerns about any possible loss of data sovereignty or the threat of cyberattacks from the outset.

**((04\_Closed\_Loop\_Kapp-Niles.jpg))**

A closed-loop system enables the seamless integration of processing and measuring machines. Employees no longer need to intervene to measure the workpieces once they have been ground.
